# Welcome!

**Rector,  
Prof. Puiu-Lucian GEORGESCU, PhD.**

*Dear students,*

*First of all, I'm wishing you the best of luck during your years of study within our university. Secondly, I hope you find this guide useful. I remember when I was first stepping into a university and how much I wished I had a guide. Back then you couldn't find information as easily as nowadays. To find out about what to expect as students you could ask your older colleagues. But their information wasn't always the best for us. And in order to manage honorably it is necessary to know even the small but necessary rules of coexistence.*

*I congratulate all my colleagues who have joined hands in a generous collective effort to make the road easier for you, the young students.*

*Thank you for choosing UDJG!*

**Vice Rector - University strategies and partnership with students  
Assoc. Prof. Ciprian Vlad, PhD.**

*Dear students,*

*You start a new stage of your personal and professional development, with the impetus of youth and the desire for fulfilment on the road to a successful career. Connected to the fascinating world of university education designed to give you the competences you need for the future, you need a variety of skills and tools to help you adjust to life as a student.*

*We believe that this guide can be such a useful tool, which can provide you with the necessary information resources for your integration into the academic community of Galati, whose trusted partners you are. Use it with confidence and in a way that suits your needs and interests as students!*

*Good luck!*

# Enrolment

In order to become a student, you will have to go through the registration process, at the beginning of the academic year.

Look for information on the website of the faculty to which you have been admitted or on the university website [www.ugal.ro](http://www.ugal.ro).

The University will issue two important documents for you: the **student card** and the **student transportation card**.

These documents are needed to prove your **student status**.

# Who do you turn to when you have a problem?

Go to your **class leader** and, if you can't find a solution to your problem, to your **year leader**.

Get in touch with your **year tutor** (each year of study has an assigned tutor). The tutor is a faculty member assigned to support your guidance and integration into the university environment.

If, however, you are unable to find a solution to your problem, contact the **pro-dean in charge of student activities** at your faculty and then the **dean** of your faculty.

You can also contact **student representatives in the University Senate or student associations**.

<https://www.ugal.ro/informatii/organizare/senatul-universitatii/membrii-senatului>.

If you still can't find a solution to your problem, you can contact **the Vice-Rector responsible for student partnerships**.

# Things you need to know

University education is divided into three study cycles:

- **Undergraduate studies (3 - 6 years);**
- **Postgraduate studies (1 - 2 years);**
- **PhD. studies (3 - 4 years).**

# How do we read the timetable?

The timetable is posted at the secretariat of each faculty and on their website. During the first few weeks, it may be subject to change.

Students are divided into **series**, and each series consists of several **groups**. All the groups in a series take part in a course. The bi-weekly activity is marked by drawing a horizontal line in the associated box.

Subjects marked **above** that line take place in **odd weeks** (starting with the first week of the semester), and those marked **below** the line take place in **even weeks**.
